The VCVB is often a first point of contact for questions about events in Valdez. Making sure the VCVB has knowledge of the event with a full description will allow us to better promote your event. Due to space limitations, a brief description and contact information will be included in the 2006 Valdez Vacation Planner and on the [www.valdezalaska.org](http://www.valdezalaska.org) website.

If the dates for your event have not been set, the VCVB would still like to include a brief description and contact information, the date will be listed TBD. We understand that things change, we only ask that we are kept informed with up to date information so that we may give the correct information and make any necessary updates to the website.

\* For your event to be included in the 2006 Valdez Vacation Planner we will need to have all of your information no later than August 25,2005.
